

CLINICAL SCIENCES (CLS08-DN)

CLS08-DN 4623 D3-D4 InvisAlign Clinic Rotation (1.5 Credits)

This course reinforces skills in diagnosis and patient management, focused on case selection for Invisalign. Students will attend regular seminars featuring case-based diagnosis and treatment planning prior to participating in clinical patient care in the Orthodontics specialty clinic. This course is open only to students in the Doctor of Dental Surgery program. Elective.

Grading: Dental Pass/Fail

Repeatable for additional credit: No
