

PSYCHOLOGY (MINOR)

Department Website (<http://as.nyu.edu/psychology/>)

Program Description

The Department of Psychology at NYU approaches the study of mind and behavior from many perspectives. Cognitive psychologists focus on perception, memory, attention, language, and thinking. Social and personality psychologists determine how social beliefs, attitudes, and decisions are formed and maintained. Cognitive neuroscientists study features and functions in the brain as they relate to certain mental processes. Developmental psychologists seek to understand factors that affect and influence individuals across various ages. These many perspectives are reflected in undergraduate course offerings, all of which emphasize the scientific basis of psychology.

Minor Declaration

To request declaration of a minor, CAS students should visit the host department. To request declaration of a cross-school minor, CAS students should complete the online Minor Application available in their Albert Student Center. Students may also use the Minor Application (<https://www.nyu.edu/students/student-information-and-resources/registration-records-and-graduation/forms-policies-procedures.html>) in Albert to request cancellation of a CAS or cross-school minor.
